List of Tables

This is an example file showing how regression tables from R can be imported into LaTeXusing the code available on `https://github.com/calvinwhealton/R_tables_to_LaTeX`.

1 Ordinary Least Squares

Table 1: A table where only the table values are written, not the caption, label, and horizontal lines at the beginning and end of the table.

SSE	87.9		DoF	97
SSR	2222.92		R2	0.962
SST	2310.82		Adj.R2	0.9608
RSE	0.952			
Variable	Est. Coeff.	Std. Error	t Stat.	$\Pr(> |t|)$

x2	2.046e+00	4.889e-02	4.184e+01	7.003e-64

Table 2: A table that is entirely written from R including captions (long and short) and label.
